Subjects

Adapted Physical Education
small samples, Mann-Whitney U test; *Spring, p. 21*

Aerobic Exercise
clinical case study; *Fall, p. 21*

Attention Deficit Disorders
Ritalin and postrotary nystagmus response; *Summer, p. 13*

Diabetic
blood glucose responses, exercise; *Summer, p. 24*

Hips
rotator peak torque, range of motion; *Winter, p. 4*

Horseback Riding
therapeutic, resources and references; *Spring, p. 2*

Kinesiotherapy Graduates
employment of; *Fall, p. 10*

Mentally Retarded
sensory reinforcement, blind; *Fall, p. 3*
intelligence, age, motor ability; *Winter, p. 9*

Multiple Sclerosis
aquatic exercise for; *Fall, p. 14*
maximal aerobic exercise in; *Winter, p. 14*

Osteoporosis
osteoporosis research, review, implications for exercise; *Summer, p. 2*

Paraplegic
neuromuscular stimulation; *Spring, p. 29*
electrical stimulation and leg cycle training; *Summer, p. 24*

Quadriplegics
responses during exercise; *Spring, p. 29*

Science
peer review in; *Summer, p. 18*

Static Balance
and postrotary nystagmus; *Spring, p. 8*

Sports
success, stereotypes; *Spring, p. 16*
